

Biography

Dr. Huei-Ru Fuh received her B.S. in Physics at the National Cheng Kung University in 2006 and a Master in Physics from National Taiwan University in 2009. She completed her Ph.D with the graduate institute of applied physics in National Taiwan University in 2014. After graduated, she worked as a postdoc in the Institute of Physics, Academia Sinica and the National Taiwan University in 2014-2018. Since 2018 until now, she is an assistant professor at Yuan-Ze University, Taiwan. Her recent interests focus on 2-dimensionals material specializing in the solid state physics theory based on first principles calculations.
